

NEW BUSINESS: FOR DISCUSSION AT LPTC AGM 2019

1/ Use of personal ball machine on LPTC courts

2/ Should the Club change current restrictions on use of Club ball machine which is only to be used by certified instructors working at the Club.

I want the following discussed at the AGM.

1. I brought to the club a ball machine which I used successfully about 4 times on court 1. I arranged it so I was hitting balls into a fence corner. This was to not interfere with court 3 (court 2 was unused). Stephen let me store it in the West shed. However, he gave me difficulty in plugging in the charger. I then took my machine home.

2. I subsequently discovered a ball machine in the East shed. A couple of days later, I discovered a combination lock on the East shed.

3. David Douglas informed me that the resident ball machine had been used in manner to interfere with other players.

4. Perhaps the ball machine could be permitted only at designated low play times.

This is a practical issue that will improve players!

Keep up the good work,
Jim Winslow
